To Whom It May Concern:

I have been a resident of Orcas Island for twenty years. I am currently 58 years old, and have raised two children here on island. I originally moved here from Seattle because of the beauty, safety, and depth of community activity here. Overall, I have been very impressed with the general stewardship of the island over this time.

Please note: I have read the Vision Statement which states "We support a pattern of economic growth and development which serves the needs of our community, and which recognizes the rural, residential, quiet, agricultural, marine and isolated nature of the islands." I moved here to enjoy what the islands are like now, and I am concerned that they may grow to lose many of these qualities, something that has happened all over the country to beautiful small rural communities.

I understand that the comprehensive plan is going to be updated. Please ensure that it supports the Vision Statement.

Thank you,
