Subject: Please ensure that the Comprehensive Plan supports the Vision Statement.

To SJC County Council and the Department of Community Development (DCD) --

I support the Vision Statement which states "We support a pattern of economic growth and development which serves the needs of our community, and which recognizes the rural, residential, quiet, agricultural, marine and isolated nature of the islands." Other phrases in the vision statement talk about stewardship and preserving pristine environments. I am concerned that we may grow to lose many of the qualities that brought us to this beautiful small rural community. I understand that the comprehensive plan is going to be updated. Please ensure that it supports the Vision Statement.

In addition, I request that you revisit and implement the Planning Commission's findings and make the information produced broadly available to the public prior to any substantive conversations, actions or hearings by DCD or the PC so that the citizens of SJC can, for the first time, have a clear and unambiguous picture of the status of the current CP.

Thank you for your attention,
