Subject: Community Plan Update Meetings.

I suggest that the SJC Planning Department make a more vigorous effort to advertise the Community Plan Update meetings. I suggest that someone from your Dept. contact the San Juan Journal weekly to do a follow-up story weekly on the status of the update meetings, and encourage county wide participation. Also hold a meeting on each island at least every six weeks. Our busiest time of the year is coming up and with more property owners on the Islands between May and October it would guarantee the greater potential for all of the different residents participation.
