---

Dear Erika,

I'm going through the cumbersome process of trying to locate all of the various elements and appendices that have already been updated for the comp plan. I would like to suggest/request that on the 2018 Comprehensive Plan Update web page, links to all of these elements and appendices are provided including current status and draft versions (if not yet adopted) so that someone can easily find them. In similar format as this page: <http://www.sanjuanco.com/510/Comprehensive-Plan> but with the current versions and status, i.e.

Element 1 – Governance (*status*)

Element 2 – Land Use (*status*)

Element 3 – Shoreline Master Program – *updated April 5, 2016, waiting for DOE approval (link)*

Element 4 – Water Resources – *waiting for WRMC to complete report, expected July X, 2017*

Element 5 – Housing (*status*)

Element 6 – Transportation - *Adopted Nov 8 2016 (link)*

Element 7 – Capital Facilities – *June 2009 (link)*

Element 8 – Utilities (*status*)

Element 9 – Historic and Archeological Preservation (*status*)

Element 10 – Economic Development – *October 2014 (link)*

Appendix 11 - 2017-2022 Parks Trails and Natural Area Plan and Nonmotorized Transportation – *Adopted November 8, 2016 (link)*

Appendix 12 - Deer Harbor Hamlet Plan – *Adopted November 8, 2016 (link)*

Appendix ? - Eastsound Subarea Plan – *Approved December 15, 2015*

Lopez Village Subarea Plan –

Etc.

And that when a new element/appendix has been added, those who are on the comp plan update email list receive notice.

Thank you!

Sandi Friel
