Subject: San Juan County Comprehensive Plan

Dear San Juan County Council,

I have looked at the website, but I do not adequately understand the current comprehensive plan and ask that more please be done to better involve inhabitants of the San Juans in the redefining process of this very important vision. I am most concerned with keeping the San Juans wild, sustainable, and as close to zero waste/carbon neutral as possible. One of the greatest treasures of the San Juans is the community involvement; therefore, please do not fail citizens by obfuscating the process to redefine the comprehensive plan. Everyone deserves to understand what is happening and what will happen to this most cherished home, so please make the vision clearer with a more accessible version of the website and involve the community generously at meetings to learn what people have to contribute to the process.

Adrienne Reed
