Subject: Request for home page link

Hello,

I'd like to request that you place a large button link such as "2036 Comprehensive Plan Update" on the home page of the county website that links directly to the Comprehensive Plan Update page. The average person does not know how to access the most current data for the update. If they input "Comprehensive Plan" in the search bar, it takes them to the existing comprehensive plan elements.

BTW, great job on the beginnings of the LCA story map!

Thank you,

Sandi Friel
