firstname: Christopher

lastname: Graham

phone: 360-376-4590

poll: 20k

maxpopulationcomments: These island's are limited in their carrying capacity if protecting the ecosystem, biodiversity and quality of life are important factors. This is the case despite politics. The sustainability of a life worth living must be the top priority for decision-making. Otherwise, we rush headlong in a race to the bottom destroying all in our path for greed and avarice. We need to draw lines for the sale of the islands' ecosystem and biodiversity.
