Subject line: Public Comment for Planning Commission meeting March 16th, 2018.

Dear Members of the SJC Planning Commission,

I would like to request the addition of a new stand-alone few sentences to the Vision Statement dedicated to Agriculture. As the director of the Lopez Community Land Trust I've come to learn the importance of ag in terms of our community's overall health and well being, including soils, water, culture and economics.

Existing references to agriculture are scattered between several of the Vision Statement elements but there is no statement that accurately reflects the importance of agriculture to our community.

Thank you for your consideration, Sandy

Sandy Bishop
