**Subject:** Support local small Farms

Dear Planners,

We like the vast majority on Lopez Island support local small family farms.

Our farm community is one of the main ingredients that make Lopez so special. Farm to table is what we hear about more and more. It's a trend or movement that benefits everyone. It's healthy!

Any government or community assistance we can direct to our small but vital farming sector will help make Lopez a better place for ourselves as well as our children.

There have been sheep grazing on our land for close to 100 years. We plan to continue this tradition for as long as possible. We are finally adding chickens this spring.

Please do what you can to help.  
Thank you.

John Warsen, Lopez Farm Cottages
