**Subject:** Proposed Comp Plan vision amendment.....LAND USE

Ladies and Gentlemen,

As you review the Vision Statement, some attention or recognition of the importance of the village Sub Area Plans is appropriate. To that end, under **LAND USE**, I suggest adding;

**Village Subarea Plans (and Regulations?) are accessible, comprehensible and current.**

Comment. This seems a modest goal. The Eastsound Plan, written 25 years ago by amateurs before Growth Management, is today difficult to find and without an index or interesting graphics, generally incomprehensible and, rather than a plan and vision for the future, it is simply clumsy and out of date. We should at least aspire to do better.
