Subject: Comp Plan Vision from Sue Bauer

Thanks for considering the following suggestions or changes:

HOUSING: (add as additional, new last sentences) “At the same time, the ‘built environment’ shall impinge upon the natural environment to the least extent possible by building smaller buildings and building with energy-conservation in mind.”

NATURAL ENVIRONMENT:

(between 3rd & 4th sentences add these sentences) “We will continuously quantify & monitor our fresh water resources for the good of residents & visitors alike. Our natural environment will be proactively managed for both the human & animal communities.”

ENERGY AND RESOURCES:

(correct & combine last two sentences into) “We use renewable resources in a sustainable manner and we conserve & protect non-renewable resources wherever possible.”

CLIMATE CHANGE: (change 1st part of 2nd sentence to read) “We proactively embrace and address the human causes and the effects of...”

LAND USE: (replace last sentence with this) “ We will strive to meet the County’s economic needs while not adversely effecting the natural environment including the animal community with our longterm commitment to the preservation of the natural beauty & balance of life in our County.”
