To: Lopez Sub Area "Planners":

Barn Owl Bakery has an accepted offer on my property, Lots 2 & 3 Kingfisher Short Plat, Lopez Island. They want to have a bakery there with on site sales, a home for themselves, their family, possibly employees, and a garden with fruit trees. The Lopez Coffee Company has the lot next door with live-work plans. Please note the the Parcel just to the North of Kingfisher is a 2 acre piece that is also inside the UGA with high density zoning and could be used for housing.

Allowing Kingfisher to be used for commercial live-work, entrepreneurial enterprises, where folks can have the opportunity to develop sustainable self supporting businesses, would increase housing opportunities, local food production, encourage the arts and crafts, and maybe employ people as well. There is no more space in the central village for this currently, and this is what gives life, personality, and diversity to Lopez Island. Please do not allow this opportunity to be taken away by changing and restricting the current zoning.

Sincerely, Linnea
