Hello,

I am writing to object to the process for the County Council meeting this morning. The video livestream, which was noticed as a means of public access for the meeting, is not working. Commissioner Stephens expressly noted that it is impossible to follow staff's presentation without being able to observe their slides/powerpoint/screen (I'm not sure which because I can't see it).

The current process is inadequate and violates the notice that was given for accessing this meeting.

I request that this meeting be postponed until public access can be accommodated.

Please also include this message in the official record for the Comp Plan Update.

Thank you.
