Sophia,

Thank you for this info. The Water System info is incomplete and incorrect.

Water Systems info:

Trumble and Gibbs — 10,000 gallons in storage

Heinmiller/Stamiesen/ Irwin — has three hookups and users now and always did. A bit of misinformation when registering as two hookups had easier time of it than three.

Deer Harbor Boatworks — Has a Class B system with 30,000 gallons for fire suppression and 25,000 gallons for water system. A Class B system was approved in 1987 when Development Permit was approved.

Would you send me a copy or link to Appendix W as I see a couple references to more info re Deer Harbor there and I could not find it.

Thanks you,

Michael

The draft hamlet plan reflects the proposed removal of the Deer Harbor Community Center Overlay (DHCCO) on the Comp Plan land use map. References to the DHCCO have been removed from the hamlet plan.
